Sheelash Singh Bhadoriya

Product Designer | UI/UX & Design Systems

Indore, India | +91 9516372235 | shailashs79@gmail.com | linkedin.com/in/sheelash-singh | portfolio-s-gilt.vercel.app

SUMMARY

Product Designer with 6 years of experience driving Product Discovery, Interaction Design, and scalable design systems for enterprise SaaS applications. Expert in Design Thinking, Information Architecture, Figma prototyping, and Accessibility (WCAG) standards. Track record of bridging UX with React/Next.js frontend engineering, accelerating delivery cycles by 40%, and designing for 50,000+ enterprise users.

EXPERIENCE

Senior Product Designer / Frontend Developer **Nov 2022 – Oct 2026**

Savo Technology Pvt. Ltd. *Indore, India*

- Led Product Discovery and Interaction Design for 4 enterprise SaaS platforms, structuring complex Information Architecture and user flows to increase task completion rates by 32% across 50,000+ users.
- Architected and scaled a multi-brand Figma design system with 250+ tokens and components, establishing standardized UI patterns across 4 product squads and accelerating sprint delivery velocity by over 40%.
- Executed 45+ Usability Research sessions and heuristic audits applying Design Thinking, translating user feedback into interface refinements that reduced workflow drop-off by 28% and cut support tickets by 35%.
- Developed responsive, accessible web interfaces adhering strictly to Accessibility (WCAG) standards using React, Next.js, and Redux, cutting design handoff discrepancies and UI defect tickets by 35%.

UI/UX & Web Designer **Jun 2021 – Nov 2022**

Votive Technologies Pvt. Ltd. *Indore, India*

- Delivered Interaction Design, detailed user personas, journey maps, wireframes, and clickable interactive prototypes in Figma for 18+ international client accounts across diverse responsive web and mobile products.
- Facilitated Product Discovery workshops and restructured complex Information Architecture, applying Design Thinking principles to streamline onboarding funnels and boost enterprise user retention by 25%.
- Partnered closely with cross-functional engineering teams during Agile sprints to deliver pixel-accurate design specifications and token documentation, cutting frontend implementation turnaround by 30%.

Web Design Trainee **Jun 2020 – Jun 2021**

Mind Info Services *Indore, India*

- Built semantic, responsive web layouts and interactive UI prototypes using HTML5, CSS3, and JavaScript, collaborating on 12+ client website launches complying with Accessibility (WCAG 2.1) standards.
- Standardized reusable UI component libraries, responsive layout grids, and digital asset production guidelines, ensuring seamless cross-browser consistency and accelerating team asset delivery turnaround by 20%.

SKILLS

Design: UI/UX Design, Interaction Design, Information Architecture, Wireframing, Prototyping, Design Systems

Research & Strategy: Usability Research, User Testing, Heuristic Evaluation, Product Discovery, Design Thinking

Tools & Standards: Figma, Framer, Adobe Creative Suite (Photoshop, Illustrator), Accessibility (WCAG 2.1)

Frontend & Methods: React, Next.js, Redux Toolkit, HTML5, CSS3, REST APIs, Agile/Scrum, Developer Handoff

EDUCATION

Diploma in Engineering (Mechanical) **2011 – 2014**

RGPV University *Bhopal, India*

LANGUAGES

Hindi, English
